

DASCOM DL-830 Perfect for industrial applications

Tally
DASCOM

If you want feature-rich, high-speed, high resolution thermal label printing at an affordable price, then look no further than the DL-830 from DASCOM.

Built with a user-friendly design for easy paper loading, the DL-830 offers the most popular market emulations, gives users a choice of interface options, and has the capacity to hold a ribbon roll length up to 1580 feet (450 meters). You'll also enjoy less user-intervention time since the roll paper core will accommodate a diameter up to 8 inches (203 mm).

The flexible DL-830 can be configured with a variety of optional accessories making it appropriate for use

in many industries including logistics, hospitality, and food service among others.

The DL-830 is also designed with a unique paper tear blade that allows directional tear in either direction or even up or down, depending on user preference.

The DL-830 also provides an adjustable black mark detection sensor so it works well and can adapt to available black mark media.

Sturdy, but ergonomically-designed, the DL-830 gives users a tough and rugged printer that will fit well and attractively in demanding environments.

Highlights at a glance:

- High Speed Printing
- 200 and 300 DPI versions available
